Subject: Application for **Cloud Modernization SME** R0237557

Dear Philip,

I am excited to apply for the **Cloud Modernization SME** role (R0237557). With over 10 years of experience supporting enterprise IT environments and hands-on expertise with Azure Data Engineering, Power BI, and Azure Pipelines, I am confident in my ability to help clients adopt DevOps practices and achieve mission-focused outcomes.

I bring a blend of technical proficiency and high-touch customer support, including maintaining CI/CD pipelines, automating configuration and infrastructure provisioning, and guiding organizations through cloud migration within Azure. My experience leading stakeholder meetings, gathering requirements, and clearly communicating technical information enables me to support both technical and non-technical users effectively.

I have also delivered user enablement through training sessions, SOPs, and quick reference materials, while analyzing ticket trends to identify knowledge gaps and propose process improvements. I value Booz Allen's commitment to innovation and would welcome the opportunity to contribute to a team focused on enhancing efficiency and driving meaningful impact.

Thank you for your time and consideration. I look forward to the opportunity to discuss how my background aligns with your needs.

Sincerely,

Milind Chokshi
