

Milind Chokshi**Level:** Cloud Data Engineer/Operation Lead**Email:** Chokshi_milind@bah.com**Cell:** (757) 763-0143**Clearance:** Clearance Eligible, Public Trust**Residence:** Virginia**Willing to relocate:** Yes**% Willing to Travel:** 100%**EXPERIENCE SUMMARY**

I am a seasoned IT leader with more than 10 years of experience in enterprise-scale digital transformation, specializing in cloud computing, designing/deploying, enterprise architecture, and governance. I have strong background in automation (Bash/Python), cloud platforms, CI/CD pipelines, and production operations aligned to Agile and ITSM practices. I am a strong communicator with proven ability to translate business needs into scalable, automated solutions while having experience in driving DevOps culture and maintaining pipelines.

COMPETENCIES

• DevOps/DataOps Engineering (7 yrs)	• Cloud/Systems Integration (10 yrs)
• AI-Driven Analytics Enablement (3 yrs)	• Infrastructure Development (3 yrs)
• Requirement Analysis and Training (5 yrs)	• Agile Development (10 yrs)
• Stakeholder & Leadership (10 yrs)	• Data Migration Strategy & Execution (7 yrs)

WHITE PAPERS/CERTIFICATIONS

- AWS Certified Cloud Practitioner (March 26)
- Building Resilient Streaming Systems
- Big Data and Machine Learning Fundamentals
- Architecting Kubernetes Engine
- Leveraging Unstructured Data with Cloud

SUMMARY OF SKILLS, TOOLS, AND TECHNOLOGIES:

Cloud Platform: Amazon Web Service (AWS), Microsoft Azure, Google, Ignition (SCADA)

Cloud Data Platform: Databricks related Spark//Delta Lake, Azure Data Factory

CI/CD Tools: Jenkins, DevOps, Kubernetes

Data Governance: Manta, Brigid, Erwin Data Intelligence, Erwin Data Quality

Code Management: Enterprise GitHub, Github.com, SharePoint

Planning Tools: JIRA, Version One

Statistical Tools and Language: R-Studio, RS Connect Server, Shiny Applications

Visualization Tool: Power BI

Database/Management Knowledge: ORACLE, Microsoft Access, SQL Server, MDM

Programming Languages: Python, R

Operating System: Windows, Linux

EXPERIENCE DETAILS**Data/Cloud Engineer, Booz Allen Hamilton, VA****Present**

- Assists in the deployment of data infrastructure such as cloud migration, data lakes, data mesh, and data fabric concepts; advises data teams on optimal approaches to data infrastructure to improve performance of analytics, dashboards, and decision-making

Senior Data Operation Engineering Manager/Architect, PRA Group Inc, VA**2017-2025**

- Lead design and deployment of cloud infrastructure supporting mission-critical workloads across multiple environments (dev/test/prod)
- Built, maintained, and optimized CI/CD pipelines to improve development efficiency and system reliability and enabled adoption of data and analytics technologies including DevOps Pipelines
- Automated operational workflows with Bash/Python for health checks, remediation, and validation
- Facilitated meetings, guided stakeholders, and communicated complex technical concepts to both technical and non-technical audiences
- Implemented data integration, movement, transformation, Lakehouse and warehouse architectures, notebook-based development, role/group-based access controls, data pipeline creation
- Supported cloud migration efforts and educated teams on best practices within cloud environments

- Established a Data Governance program to enhance data lineage, dictionary, business glossary, quality, and cataloging for both transitional and restful data
- Utilized containerization and orchestration technologies, applying DevOps, DataOps, and MLOps principles for scalable and efficient operations

Significant Achievements (Approx project cost \$5 million):

Strategic and hands-on leader with deep expertise in Azure, and modern data engineering technologies. Spearheaded enterprise-scale data migration projects (50+ TB) from on-prem to cloud, architecting resilient Lakehouse and warehouse ecosystems with 20% cost savings

IT Product Lead/Manager, TE Connectivity, VA

2015-2017

- Developed SOPs, quick reference guides, and training materials to enhance user enablement and operational knowledge
- Coordinated vendors to upgrade current systems, purchase equipment, and maintain existing solutions.
- Implemented physical infrastructure from the database, network, and software installation on AWS cloud
- Built data warehouse with business intelligence to create reports, charts, and data analysis in SQL Server
- Worked with Statement of Work (SOW), Master Service Agreement (MSA), and Project Charter

Significant Achievements (Approx project cost \$20 million):

Implemented the complete database and IT infrastructure of around \$1.2 million and helped with successful project execution to eliminate the manual data collection, storage and administration, and analysis phases

Senior Database System Analyst, Old Dominion University, VA

2011- 2015

Old Dominion University, Norfolk

- Designed and worked on Oracle schemas, table partitions, materialized views and indexes
- Corrected and compiled code into test, pre-production, and production environment
- Administered Oracle Database Administrator tasks such as RMAN backup and restoration, monitoring, users and role management, performance improvement, and cloning
- Supported and performed the database installation, implementation deployment, upgrades, and maintenance of Oracle based ERP systems
- Developed and configured the Oracle workflow application related to intra-department request flows

Portal Administrator/Developer, Old Dominion University, VA

2001-2011

- Guided and managed portal team members for Java based web-portal technical implementation and manage coordination among various departments such as network, database administrator, Banner Student application, security, Unix and Windows server, and LDAP administrator
- Developed websites for various educational departments, organization, and institutes within the University (<http://www.odu.edu>) and created applications using Java-based technologies

EDUCATION

MS – Electrical Engineering (Computer Simulation), Old Dominion University

BS - Electrical Engineering, BVM Engineering College, SP University
